

Digital Humanities Graduate Certificate

The Digital Humanities Graduate Certificate prepares students to:

- ✦ **create, utilize, and evaluate** digital methods and tools for research
- ✦ **assess** the diverse impacts of technologies on people and society
- ✦ **leverage** digital technologies for teaching, public outreach, and engagement

Certificate Requirements

The certificate requires at least nine credit hours at the graduate level with an average GPA of 3.0 (B) or better:

1. Three credit hours in the following core course:

DHUM 5000: Introduction to Digital Humanities

2. Two additional courses selected from an approved course list in consultation with the Certificate Director
3. Optional 1-3 credit DH capstone project
